1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3 March 2005 has been entered.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-6, 9-15 and 17-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Lanzillo, Jr. et al. (US 20020032602A1).
4. Lanzillo, Jr. et al. teaches (independent claims 1, 9-14 and 17-20) a system, server, apparatus, method and record medium for controlling sales promotions using direct mail based on an Internet technology, the method comprising: determining whether or not issued direct mail was opened (browsed) through a direct mail open acknowledge request option, and automatically storing this event in database records to permit the identification of active users and a record of ad penetration (para. [0021]), which reads on automatically controlling sales promotion activities for commodities advertised in the direct mail based on the determined result. Lanzillo, Jr. et al. also teaches an assignment state of a benefit (a *coupon in the message*, para. [0020]) and a transaction history of commodities on an online shopping system (para. [0020], where *camping* is an example commodity).
